

Educational Foresights on the Margins of the System

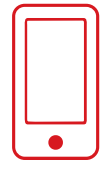

Challenges, Opportunities, Strategies, and Advocacy Towards the Future

Structural Challenges: State Responsibility

- 

Lack of public policies focused on sustained investment in education.
- 

Rigid legal and institutional frameworks, as well as regulatory gaps within the Ministries of Education.
- 

Poor quality of school buildings, furniture, and supplies.
- 

Severe inequality in access to technology and the internet.
- 

Lack of multidisciplinary state teams to support students with disabilities.
- 

Deficient accessibility in rural areas and indigenous communities.

Common Challenges in Program Implementation

- 1

RETENTION

Combating school absenteeism and dropout rates in vulnerable contexts.
- 2

PROFESSIONAL DEVELOPMENT

shortage of qualified personnel in active methodologies and inclusion.
- 3

EMOTIONAL AND SOCIAL SUPPORT

Need for social-emotional support and emotional support in conflict-ridden environments.
- 4

FAMILY ENGAGEMENT

Low family involvement driven by economic emergencies.
- 5

MIGRATION

Linguistic and cultural barriers, and disruptions caused by high family mobility or migration processes.

Internal and External Opportunities Capitalized

- Internal

Identity and Innovation

 - ✓ **Identity and Vocation:** Commitment of teachers, volunteers (VOLPA), and research into local realities through Popular Education.
 - ✓ **Contextualized Proposals:** Flexible, playful, and community-based methodologies adapted to each territory.
 - ✓ **Vocational Training and Employment:** Flexible models for youth and technical-vocational schools linked to the territory.
 - ✓ **Ongoing Support:** Continuous teacher training and strengthening of technological platforms and the Federative Network.
- External

Co-Responsibility

 - ✓ **Inter-institutional Networks:** Exchange between educational centers, NGOs, private companies, and universities.
 - ✓ **Community Coordination:** Joint work with civil society organizations and protection agencies.
 - ✓ **Agreements with the State:** Leveraging public programs and accessing to health, justice, and employment services.

"External alliances make caring for the vulnerable a shared responsibility of society as a whole."

Successful Strategies for Sustainability

STRATEGIC AXIS	KEY PRACTICES FOR SUSTAINABILITY
PARTICIPATORY PROCESSES	Participatory community assessments: school support networks with families; youth participation and representation in decision-making processes.
FLEXIBLE EDUCATIONAL PATHWAYS	Hybrid programs (Saturday classes, transitional classrooms for children experiencing mobility); literacy-work coordination; intercultural education and education for those in detention.
HUMAN DEVELOPMENT AND CARE	Life Project support; career guidance; student counseling; constructive use of leisure time and expressive teaching methods.
LABOR MARKET INTEGRATION	Basic-to-higher-level transition; radio schools; Production Units in Alternative Centers; seed capital for entrepreneurship.
TEACHER PROFESSIONAL DEVELOPMENT	Technical support from National Offices; guidance materials; awareness-raising on inclusion, interculturalism, and language.
DISTANCE EDUCATION AND ICT	Reusable asynchronous modules that reduce costs: virtual reinforcement; community resource banks.
PUBLIC ACTION AND ADVOCACY	Awareness and literacy campaigns; public-private partnerships; publication of pedagogical systematizations.

Advocacy and Concrete Proposals: The Future of Fe y Alegría

- Strategies for Local Advocacy and Influence**

 - ✓ **Systematization and Evidence:** Turning practices into research to demonstrate results to the State.
 - ✓ **Political Dialogue:** Capacity transfer, roundtable discussions, and participation in governance and social oversight spaces.
 - ✓ **Public Communication:** Mobilizing the public agenda to advocate for the right to a quality education.
- Future-Oriented Proposal Models**

 - ✓ **New Vulnerabilities:** Responses to mental health crises, peace, diversity, and responsible artificial intelligence.
 - ✓ **Financial Sustainability:** Fund diversification, territorial alliances, and State responsibility.
 - ✓ **Complementary Services:** Daycare centers in educational facilities for student mothers, and school cafeterias.
